TOT-S
Training of Trainers
Short-term mission emphasis
September 7-9, 2017
Barrington IL
MAI is dedicated to making long-term investments which equip unreached people groups through engagement with both short-term and career missionaries. However, our desire and commitment is to empower people to accomplish their own tasks rather than increase their dependency on outsiders.

Short-term teams can be effective by:

- Empowering local champions
- Leading studies on wholistic transformation ministry
- Encouraging local congregations to meet needs in their home community
- Developing long-term relationships with a sister church or missionary overseas
- Sending short-term specialty teams
- Working with local CHE leaders in overseas communities

**Seminar Topics**

Topics to be covered include, but are not limited to:
- CHE fundamentals and principles
- Bible Storying
- Causes of Intra-Cultural Conflict
- Teaching Oral Learners
- Projects or Transformation?
- CHE Options for Short-term Teams
- Doing Missions without Causing Harm
- Ten-Seed Technique
- Worldview and Development
- Hands-on practice teaching a CHE lesson
- Learning about the Community
- Understanding Wholistic Missions
- And more!

**Training Details**

**Cost:**
$125 for entire seminar and materials. (lodging not included)

Copy of all CHE lessons available to purchase for $20 at completion of class.
