

WANT TO LEARN?

What is Community Health Evangelism (CHE) and why is it so successful in reaching the lost with the love of Christ? What is the difference between relief-based missions and development? How and when are our efforts to help the poor and needy, well-intentioned as they are, harmful? How can missions avoid creating dependency and promote wellness and ownership on the part of those being helped?

These and other topics will be addressed in a special online training seminar from July 13-16, 2020. This TOT/seminar is being sponsored Medical Ambassadors International.

Recommended for all who have a heart to help the poor and hurting. We invite you to this perspective-changing and thought-provoking training! We believe you will find it to be insightful and beneficial to your own missions programs and to those you serve for Him.

“If you plan for a year, plant a seed. If for ten years, plant a tree. If for a hundred years, teach the people. When you sow a seed once you will reap a single harvest. When you teach the people, you will reap a hundred harvests.”

- Kuan Chung, 645 BC

Community Health Evangelism TOT (*special online version!*)

SEMINAR STRUCTURE

This seminar has been designed for those serving cross-culturally in either long- or short-term settings.

Topics(*) to be covered include, but are not limited to:

- What is Community Health Evangelism (CHE), and how is it used?
- What is the difference between relief, rehabilitation and development?
- Worldview—how it affects missions and can help or hurt our efforts
- What is good health?
- How do we apply the gospel holistically?
- CHE and missions
- Transitioning from Relief to Development
- The Great Commission and the Great Commandment
- LePSAS learning technique and practice
- Roles to implement CHE in the field
- Intro to Urban CHE (Neighborhood Transformation)
- When helping hurts—doing missions without causing harm
- Evangelism in CHE
- Bible storying
- The 8 foundational pillars of CHE
- Various approaches to CHE
- **SPECIAL NOTE:** this is the first virtual CHE training we've held. Please be aware that while every effort will be made to avoid technical issues, you will be helping us pioneer this approach to training. We appreciate your patience and willingness to help us test this training concept!

* **NOTE:** Topic list is preliminary and may change according to needs and interests.
